Samsung S24C450D Desktop Monitor

Available to work longer hours whenever you are.

24" LED Desktop Monitor with Improved Ergonomics

The highly reliable Samsung S24C450D is comfortable working longer hours. And so is everyone who uses it. Thanks to its ergonomic, 4-way adjustable stand, business professionals stay content, focused and productive. That's good news for the bottom line. Connectivity has been upgraded, too. With inputs such as VGA, DVI and DisplayPort, users have the flexibility to connect to the devices they use most. An ideal choice for everyone, the monitor boasts an LED-backlit LCD screen that produces excellent text clarity and rich color. Its narrow-bezel design saves desk space, while its front-mounted tactile buttons allow for easy, intuitive operation. It's a reliable performer day in, day out. **Business**. **Innovated**.

Everything's Up Front
With narrow bezels, a black matte finish and front-mounted tactile buttons, the S24C450D is an easy-to-use, easy-to-deploy and easy-to-maintain professional-grade desktop monitor solution.

LED Technology Saves Energy
Samsung LED technology requires up to 40% less energy than conventional monitors, and users can easily adjust brightness settings for an extra energy savings of up to 50%. This enables enterprise users to better manage their power usage.

Impressive Picture Quality
The LED-backlit LCD screen delivers sharp, bright, beautiful images. Mega infinity dynamic contrast ratio ensures subtle detail even in the lights and darks, and MagicAngle technology delivers rich color even when viewed off-angle.

Slim Design That Fits Any Desk
The sleek, stylish design and low profile stand take up less desk space and contribute to a cleaner-looking office. The built-in cable management feature also adds to a clutter-free work environment.

Ergonomic, Adjustable Stand
The monitor swivels, tilts, pivots and is height-adjustable. And since the monitor is VESA compatible, installation on a wall or separate mounting arms is easy.

Fast, Easy Connectivity
VGA, DVI and DisplayPort give users flexibility in high-speed connectivity. So whatever devices users need to connect today or in the future, the S24C450D keeps everyone's options open.
